get on well
enjoy someone's company
keep in touch
be like chalk and cheese
have a lot in common
love at first sight
break up
make it up

Alex is my best friend. We met seven years ago when we were in Grade 1.
All of our friends think we **are like chalk and cheese** and they don't understand why we **get on well** together. Alex is tall and slim, easy-going and everybody's favourite.
I am short and plump, and a bit shy.
The fact is we **have a lot in common** and I really **enjoy his company**: we are both mad about photography and we take hundreds of pictures every day. Now we are in different schools but we **keep in touch** every day. We talk on the phone or we text. Alex has got a girlfriend, I think it was **love at first sight**. It's a very interesting relationship. They **break up** and then **make it up** almost every week. I'm not sure if I want to have a girlfriend right now!

Now listen to the phrases in bold and repeat.

13 **Work in groups of four. Each of you think of your best friend and describe him/her to your classmates. Use the description in 12 and your list of adjectives of personality. The questions below will also help you.**

But she has nothing to give him because she's very poor. Little Swallow, can you bring her one of my precious stones?'
'But my friends are waiting for me in Egypt,' said the Swallow.
'Swallow, Swallow, little Swallow,' said the Prince, 'stay with me for one night and help me, please. The boy is so thirsty, and the mother is so sad.'
'I don't like boys,' answered the Swallow. 'Last summer, while I was sitting on the river, there were two nasty boys who were throwing stones at me.'

Friendship is important to everyone. According to experts, students who have lots of friends are more generous and do better at school. Today most teenagers have hundreds of people on their buddy lists on social networking sites. But are they real friends?

Virtual friends are often people you don't really know but you 'speak' with by email, instant messaging or social networking, in chat rooms or while gaming. All of this is great but studies show that most of these friendships stay in the digital space – only 20% of teenagers meet their online friends in person.

With your real friends, you can share funny videos, play games, and chat all the time. But you can do so much more – go to the cinema or to a party, play basketball, or chat over a delicious pizza. You can share a secret and give a real hug, not the bear emoji!

So don't feel bad when other people have more virtual 'friends' than you. When it comes to friendship, quality is more important than quantity.

You must learn the past participles of irregular verbs by heart!

Look at the list of irregular verbs on p. 142 in your Student's Book. The form in the third column is called the *past participle*. It is also often called the third form of the verb.
The past participles of regular verbs end in *-ed* and are the same as their Past Simple forms.
We use the past participles to form some grammar tenses. The past participles are also used as adjectives, for example *a broken leg*, *spoken English*.

PRACTICE

HOUSEHOLD CHORES

I've got a very small family – just my mum and me. We share all the chores. Of course, I have to tidy my room and make my bed. But I never do the ironing. Mum is responsible for cooking and grocery shopping. We always do the cleaning together on Sundays. I often help with vacuuming and dusting.

Florance Lyon, France:

I live on a farm. So there's much more than housework to do. At home I do the washing-up. Sometimes I help make meals. Then there's the farm work. My parents do most of it but I have to feed the cows and chickens. We hardly ever milk the cows these days because we usually do it by machine.

Borys Kyiv, Ukraine:

My family is big – mum, dad, my twin sister, our cat Memory and me. There are loads of chores and we all share equally. Except for the cat! We share both the work and the fun. Come to Whittlesea on the second weekend of January and you'll see a giant straw bear walking around the streets. This is a custom which dates back to at least 1882. According to tradition, a local farm worker dresses up as a straw bear and walks around the town to entertain people. Over 250 dancers, musicians and performers from various parts of the British Isles join in the parade. For three days, the participants wear traditional colourful costumes, and some even paint their faces black! The festival finishes with a special 'bear burning' ceremony to celebrate the new harvest.

On February 2 every year, people look at groundhog burrows across America very carefully because they believe that groundhogs have magical powers to predict seasonal change.
According to folklore, if it is cloudy, the groundhog will come out of its burrow and spring will come early. If it is sunny, it will return to the burrow and winter will continue for six more weeks.
The tradition of watching the groundhog dates back to the 18th century. The biggest celebration these days is in Punxsutawney, Pennsylvania – the state where the tradition originated.

Hi Gabi,
How are you doing?

Greetings from Cardiff! I'm visiting my grandparents here.

It's a very special day today. It's Saint David's Day.
St David is the patron saint of Wales. On March 1, we also celebrate Welsh culture. People usually go to church, take part in parades, listen to choirs or Welsh literature readings.
In schools, there are celebrations, too.
Children and some adults wear traditional costumes.
People often pin a daffodil or a leek to their clothes.
These are symbols of Wales.

Cheers,

Justin

PS I'm sending a photo!

Angie says: Reply

Dear Justin, I need advice. For breakfast I have a bowl of cornflakes with milk and sugar and a glass of OJ. I feel hungry and tired an hour later. What should I do? You're someone whose opinion I trust!

Justin says: Reply

Dear Angie, your breakfast's got a few teaspoons of sugar but little fibre and no protein or fat. In fact, it does more harm than good!
You should have a more nutritious breakfast and you shouldn't eat so much sugar.
Morning is a time when you need to get energy to last you all day!
You must try this: a bowl of oats with milk, walnuts, frozen blueberries, and a little honey. Yummy and good for you! Oats are rich in good carbohydrates. These are food for your brain. Walnuts add healthy fats and protein and give you power. Real fruit like blueberries have less sugar and more fibre than OJ. Milk's got calcium and extra protein. Good luck!

My favourite healthy dish

22 **Read Georgi's homework and answer the questions.**

- **How often does Georgi eat Shopska Salad?**
- **Is Shopska Salad easy to make?**
- **Do you slice the tomatoes and cucumbers?**
- **Do you chop the onions and peppers?**

My favourite healthy dish is Shopska Salad. My mum makes it two or three times a week.
It's just got a few ingredients: tomatoes, cucumbers, peppers, onions and cheese. Most people eat the salad with salt and olive oil.
It's very easy to make Shopska Salad. You cut the tomatoes and cucumbers into large cubes. Then you slice the onion and peppers. You add parsley and mix the ingredients. You grate some cheese on top.
It's yummy!

Now write about your favourite healthy dish. Follow the model above.

The Island, Bembridge
18 July

Dear Mum,

I've been here for five days now. The weather has been great since I arrived. The camp is awesome!
I've done lots of things since I arrived here. The camp water sports are great. I've already done some kayaking and canoeing. I've improved my swimming technique a lot. Tomorrow I'm going horse-riding. I've already met my horse. I've also played tennis twice. The all-weather courts here are superb and the coach is really patient.
Don't worry about me. I've had a lot of fresh fruit and salad and I've put on my sunscreen regularly since the first day.

See you soon.

Alice

PS I can't believe I haven't had a mobile for five days and I haven't used a computer!

VOLUNTEERS NEEDED!

Volunteers from around the world will gather at the salt lagoon to help the conservation of this unique hotspot of biodiversity.

White storks, mute swans and pink pelicans fly over the lagoon during their autumn migration. The site attracts the largest number of several other protected species that fly across Europe on their way to Africa. It is home to about 100 species of insects, 7 species of land molluscs and more than 50 species of birds.

This year's challenge to volunteers will be the construction of a giant nesting and roosting platform. Then the volunteers will cover the platform with reeds that they will harvest themselves.

To apply, please, fill in the application form. You'll receive a confirmation email when your application is approved.

If you are under 18, you are welcome in the company of an adult.

NB! Please note that volunteers will be able to enter the camp area when they show the confirmation email.

VOCABULARY

Ecotourism

10 **Read the text about ecotourism. Try to guess the meaning of the words in bold. Then look them up in the Wordlist at the end of your Student's Book.**

habitat
carbon footprint
litter (n.)
extinct
environmentally friendly
mass tourism
damage (v.)
sustainable

Nowadays, living green has become an important part of our lives. A great number of people do their best to live in a **sustainable** way. This means that they try to **damage** the **environment** as little as possible. They recycle, use public transport or cycle to school or work, and buy locally produced food. They want to have **environmentally friendly** holidays, too.

Ecotourism is the opposite of **mass tourism**. People travel to faraway places to see animals and plants in danger of becoming **extinct** in their natural **habitat**. Ecotourists travel in small groups and stay in local houses. They are encouraged to respect the customs and traditions of the people who live there. Ecotourists should preserve the local environment by cleaning up their litter and not picking wild flowers or disturbing animals. Tourists should also think about their **carbon footprint**. They can reduce it by walking instead of using motor vehicles, or by using less water and turning off electricity.

Now listen to the words in bold and repeat.

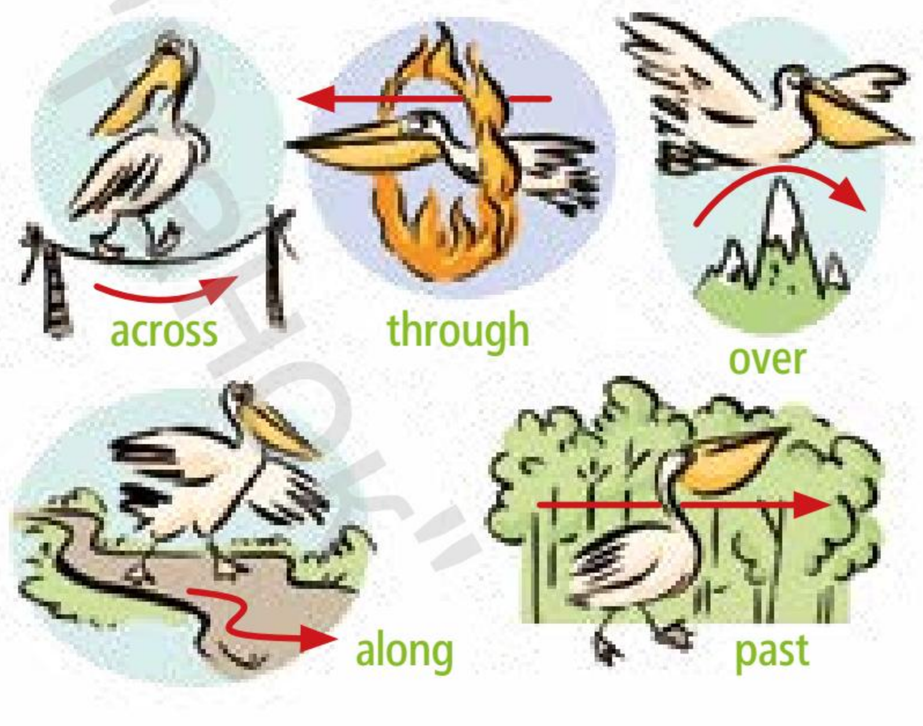

11 **In your notebook, match the words in 10 with their definitions.**

1. no longer existing
2. not harmful to the environment
3. the natural environment in which an animal or a plant usually lives
4. using methods that do not harm the environment
5. the amount of CO_2 that someone's activities produce
6. rubbish such as plastic bags that people have dropped on the ground in public places
7. to harm or spoil something

Hi, Gab and George! How's life?

I've got some great news! Dad and I are coming to Ukraine in August. We're going to take part in the conservation camp at Solonets-Tuzly Lake. For one week, we're going to build a platform for the birds and watch the autumn migration.
We're going to have fun as well.
We can go for walks, take mud baths, or cycle to the beach.

In the evenings, we're going to sit round the campfire, sing songs and tell stories.
Maybe Vicky and Borys will come, too.
Do you want to join in?

Cheers,

Justin

Hey, guys! What do you like wearing? Reply

Vicky

I adore fashion and I love looking smart. I usually wear dresses and skirts. I like accessories like scarves and hats. They're girly and stylish! I love wearing high heels but Mum says I can't wear them to school.

Claudia

I'm a fan of rock music from the 90s and my clothes are a fashion statement. I wear vintage clothes – faded jeans, baggy cardigans, long skirts and the like. I can't wear these to school, though, because I have to wear a uniform!

Vittorio

I like wearing trendy clothes. I usually wear T-shirts, hoodies and skinny jeans. My favourite piece of clothing is a pair of jeans ripped at the knees but I'm not allowed to wear these to school.

Borys

I love comfy clothes – loose T-shirts and shirts, cargo pants and trainers. Cargo pants are my favourite. I love all those pockets! We're allowed to wear all kinds of clothes to school but we're not allowed to wear hats!

Hi Justin,

You looked after our son Eddie a few times last year. Can you look after him next Saturday from 9 am to 4 pm? My husband and I are going to a wedding and we need someone to entertain Eddie while we're away. He really likes you!

We do hope you accept our offer.
The pay will be 9 pounds an hour, as usual.

Please, answer this email asap. I'll need to find another babysitter if you're not free.

Regards,
Julie Marner

Hi Mrs Marner,

Thanks for considering me! I'm afraid I won't be able to make it next Saturday. I've started a new job and I work Saturdays.
If you want, ask my sister, Alice. She's very responsible. Her email is ali.wil21@ezbox.co.uk

PRONUNCIATION

Linking

IMPORTANT!

In English, native speakers join or 'link' words together.
This is one of the reasons why non-native speakers have problems understanding spoken English.
When a word ends in a consonant sound, we often move the consonant sound to the beginning of the next word if it starts with a vowel sound.
For example, in the sentence 'That's an apple' the 'n' in *an* is linked to the 'a' in *apple* and it sounds like 'That-sa-napple'.

18 **Read and listen to the examples below.**

We write:	**We say:**
Can I have an orange?	ca-ni-ha-va-no-ringe?
Come on, let's get off.	ca-mon, lets ge-toff.

Sustainable clothing: the capsule wardrobe

Do you like dressing after the latest fashion? If the answer is yes, here's some shocking news for you: the fashion industry is the second biggest polluter, after agriculture. Fast fashion helps us forget how many resources go into the production of a single piece of clothing, which we readily throw away after wearing a couple of times. But what can we do to stop the waste and live more sustainably?

If you're interested in helping the environment, the capsule wardrobe is a great place to begin. If we buy less and buy smart, we'll make a difference. The wardrobe itself consists of a small number of carefully selected clothes, usually in matching colours.

The capsule wardrobe doesn't have to be boring. If you think about it, you'll probably realise that each season you only wear the clothes you like best. So to have a capsule wardrobe actually means that you can wear only your favourite clothes. It's a chance to always look great and help conserve the environment.

1. The article is about
   a. the way fast fashion pollutes the environment.
   b. an attitude to clothes that helps save the environment.

2. The fashion industry
   a. pollutes the environment more than agriculture.
   b. pollutes the environment less than agriculture.

3. The production of one piece of clothing uses
   a. a lot of resources.
   b. very few resources.

4. 'If we buy less and buy smart, we'll make a difference' means:
   a. If you buy less and choose carefully, you'll save lots of money.
   b. If you buy less and choose carefully, you'll help the environment.

5. A 'capsule wardrobe' means
   a. a piece of furniture.
   b. a set of clothes.

6. According to the article, each season people wear
   a. only their favourite clothes.
   b. all of the clothes they own.
